

PUSPARAJ BAACHE MAGAR

+91 7018745146 | pusprajmagar@gmail.com | github.com/Puspraj-Magar | [Pusparaj Baache Magar](#)
Mohali, Punjab, India

Profile Summary

Aspiring software professional with practical experience in web development, backend technologies, and database management. Skilled in Java, Python, and modern JavaScript frameworks, with a focus on building efficient, scalable, and user-centric applications. Eager to contribute technical expertise in a dynamic development environment.

Education

Bachelor of Technology (Computer Science and Engineering) CGC University CGPA: 8.12	Mohali, Punjab 2023-2027
Higher Secondary School Education Nepal Kasthamandap Secondary School Percentage: 67%	Kalanki, Kathmandu 2020-2022
Secondary School Education Shree Ratna Rajya Secondary School Percentage: 80%	Birenchowk, Gorkha 2010-2020

Projects

React Shopping Cart Application <i>React.js, Vite, Tailwind CSS, React Router DOM</i>	Web Application
- Developed a responsive shopping cart application using React.js and Vite with reusable component architecture. - Integrated product filtering, real-time search, and cart management features using Context API. - Crafted a responsive mobile-friendly UI using Tailwind CSS and React Router DOM. - Built reusable React components to improve frontend scalability, maintainability, and overall application performance.	
Weather Application <i>JavaScript, Express.js, API Integration</i>	Web Application
- Built a weather application providing real-time updates and 5-day forecasts for 1000+ global cities using API integration. - Developed a responsive interface with dynamic weather-based backgrounds and smooth interactions. - Implemented backend API handling, geolocation, and error management to improve application reliability. - Enhanced usability with smooth interactions, responsive layouts, and real-time weather rendering.	
Student Management System <i>Java, MySQL, JDBC</i>	Academic Project
- Developed a Java-based student management system to manage academic records and student information efficiently. - Developed CRUD functionalities for student records and grade management using JDBC and MySQL. - Structured a relational database schema using foreign keys and validation constraints. - Built GPA calculation and error-handling functionalities to improve data accuracy and system reliability.	

Skills

Technical Skills: Java, HTML, CSS, JavaScript, React.js, Node.js, Express.js, MySQL, Git & GitHub, VS Code.

Soft Skills: Analytical Thinking, Adaptability, Time Management, Communication Skills, Team Collaboration

Core Concepts: Data Structures Algorithms, Object-Oriented Programming, Operating System, Computer Networks, Database Management System

Certification & Achievements

- Infosys Springboard - Database and SQL [🔗](#)
Completed comprehensive training in relational database management and earned official certification.
- AWS Academy - Generative AI Foundations [🔗](#)
Completed 12-hour training and earned official AWS digital badge.
- CompTIA Network+ Summer Training - CGC Mohali [🔗](#)
Practical knowledge of networking fundamentals and protocols.
- HTML & CSS - NASSCOM thingQbator Program [🔗](#)
Strong foundation in responsive web development.
